My Profile

Originally from Freehold, NJ, I am a 21-year old trainee on the Godolphin Flying Start program and am expected to graduate in July of 2021. I am an alumna of the University of Kentucky, have a wide range of industry experience, and consider myself driven and a self-starter. My passions within the industry include pedigrees, developing young horses, farm management and aftercare. Outside of horse racing, I enjoy hiking, skiing, cooking, art, and eventing/fox hunting.
