PROFILE

I have recently begun the Godolphin Flying Start Scholarship programme. My ambition is to train racehorses, but as part of this long term goal I aim to learn as much about the wider industry as possible so that I can put it to good use.

EDUCATION

University of Reading, UK

2014 – 2017

2:1 Hons. Geography BSc.

Tonbridge Grammar School

2011 – 2013

International Baccalaureate

EXPERIENCE

Varian Stable Ltd. – Pupil Assistant

August 2017 – August 2019

This role developed through my employment, with duties ranging from riding out, yard management and organising riders to horse care, working with vets and going racing to represent the trainer and saddle the runners.

Seven Barrows Ltd. – Work Rider/Groom

August 2013 – April 2014

Working for Champion NH trainer Nicky Henderson was an extremely formative experience in which I rode and looked after some of the best horses in the discipline.

Brendan Walsh - Internship

January 2019

During my time with Varian Stable I was afforded a month of experience abroad. I was based with Brendan Walsh, a successful trainer, in Florida. I got some great insights, such as exercising the horses, assisting the vets and going to the races.

GODOLPHIN FLYING START

Godolphin Flying Start is a Management and Leadership training programme that specialises in thoroughbred horseracing and breeding. There are four core modules: Business Management, Leadership, International Bloodstock, Breeding and Racing, Horse Production. Over a two year period, trainees study and experience the horseracing industry in Ireland, UK, USA, Australia and Dubai. The programme is accredited by University College Dublin Michael Smurfit Business School and trainees are awarded a Graduate Certificate in Management (Thoroughbred Industry) on graduation.
